Usambara Mountains

With their wide vistas, cool climate, winding paths and picturesque villages, the Usambaras are one of Tanzania's highlights. The mountains are home to an exceptional assortment of plants and birds and representing one of the highest degrees of biodiversity on the continent. MamboViewPoint is an excellent

Ecological

MamboViewPoint is a genuine Eco lodge which means that it takes care of its environment and not that it is just situated in a Natural Park. MamboViewPoint is constructed from local materials and has a very small footprint on its environment. Electric power and water heating comes from solar and waste is separated. The food we grow mainly biological together with local farmers.

Activities

Visit historical sites

Close to MVP you will find ancient footprints and caves in a beautiful environment.

Make a cultural tour

Meet the local people, cook with mama, see how they live or visit a traditional healer.

Hiking

The Usambara mountains are a wonderful place for short or long walks. Visit the natural forest, local villages, markets and beautiful views.

Visit the Shagayu forest

Enjoy a short or long walk through the stunning Shagayu natural forest with high biodiversity, waterfall or climb the Kideghe peak.

Mountain biking

The Usambaras form an excellent terrain for mountain biking. Together with a guide you can choose a tour of any length or difficulty.

Visit Mkomazi national park

Mkomazi national park is not very known but this makes it very attractive. See it's black Rhino's and also most other species.

Relax

Enjoy the peace, the nice climate, the clear sky full of stars at night and an environment with spectacular views.

And many other activities like visiting the Ndungu dam or the Maasai.
