Bridge the Gap

In October 2024, the **Bridge the Gap** project kicked off, with support from **MamboSteunPunt**. This three-month crash course is designed to help 60 students who have just completed primary school prepare for secondary education. Since primary school is taught in Swahili and secondary school in English, this program helps bridge that language gap.

The course is being run by **Upendo Secondary School** in Sunga, with two volunteers assisting the lead teacher to strengthen the program and give students the best chance at success.

Rectification

In our previous newsletter, we mentioned, "In Mambo, there are reports of people dying within days of being bitten by an infected dog."

*To clarify, these reports refer to incidents that occurred **before** the start of our rabies prevention program in 2014. Since the launch of the program, there have been no new reports of rabies-infected dogs*

in the Mambo area. We're proud of the program's success in protecting the community!
