## **Help Us Build a New Home for Empowerment**

This holiday season, as we celebrate the spirit of giving, we invite you to join us in a meaningful cause. The Kiwajate women, our Female Emancipation Group, has been empowering women in the local community by helping them generate their own income and fostering independence.

You may remember them from the project for which they have been making reusable sanitary pads. We hope to expand their activities by starting daycare for children and adding more income generating opportunities like candle-making and bee keeping.

However, they're facing a challenge. They must vacate their current workspace. Thankfully, they have been offered land in the village, but we need your help to build a new space—a hub for empowerment and growth.

Your donation can make this possible.

## **Organic Hill Farming Programme in Sunga and Mbaru Wards**

Our Organic Hill Farming Programme was established to address severe soil erosion and depletion in the Lushoto District. What began in 2015 as the Usambara Push & Pull Programme has since evolved into a robust initiative that champions organic farming and economic sustainability.

In 2020, we launched the Organic Hill Farming Company Ltd. to expand and manage this impactful programme. The results have been remarkable: improved soil fertility, increased crop yields, and a growing community of participating farmers.

By 2023, the programme had gained significant momentum, proving that sustainable farming practices can transform livelihoods and preserve the environment.
